U.S. EXPORT SALES

- Outstanding Export Sales
(Unshipped Balances)
On March 2, 1975
- Export shipments in
Current Marketing Year
- Daily Sales reported
March 3 - 11, 1975

--As Reported by Exporters

Readers of this release are cautioned that it reports sales commitments outstanding as of the date indicated, all of which are subject to modification, deferral or cancellation by mutual agreement of the parties. It is unlikely that all reported quantities will be exported. Our experience with this monitoring system suggests that sales are apt to exceed exports, sometimes by substantial amounts, during periods when supplies are in balance with expected demand. Actual shipments to date may provide a more reliable measure of current export activity. A meaningful export projection is not obtainable by the simple device of adding outstanding sales commitments to exports to date.

NEW DEVELOPMENTS IN EXPORT SALES REPORTING

During the past week, the Department of Agriculture issued the following announcements concerning the reporting of export sales.

1. On March 6, 1975, the Department announced the termination of the voluntary approval system for export sales of grains, soybeans, and soybean meal. This system was established last October as a means of safeguarding supplies of these commodities to assure their availability both for U.S. consumers and overseas customers. In view of impending grain and soybean harvests in the Southern Hemisphere and adjustments in grain and protein meal use in the domestic livestock feeding industry, it was considered unnecessary to continue this system.

However, the Department will continue to require daily reporting of large export sales. Within 24 hours, exporters must report export sales and destination changes for wheat, feed grains (corn, grain sorghums, barley and oats), soybeans and soybean cake and meal to one destination totalling 100,000 metric tons or more in one calendar day or cumulating to 200,000 metric tons or more in one calendar week.

2. The Department announced on March 7, 1975, that it would defer a decision on its proposal to limit reportable export sales transactions to sales made for a fixed price, pending additional review and evaluation (40 F.R. 11345 March 11, 1975). The deferred decision is a result of opposition to the proposal. Based on recommendations made in the responses, USDA now plans to collect data by type of contract for corn and soybean cake and meal, from which a better evaluation of the relationship between pricing arrangements and probability of shipment can be made.

The March 7 announcement also modified the December proposal that exporters report destinations as unknown unless they definitely know the ultimate country of destination (40 F.R. 11345, March 11, 1975). In addition to minor language changes, the new provision will provide that "Where a government, or agency of such government, is the sole importer of the commodity, the exporter shall report the country as the country of destination only if he or his foreign buyer has made a direct sale to that foreign government or agency."

U.S. DEPARTMENT OF AGRICULTURE, FOREIGN AGRICULTURAL SERVICE

EXPORT SALES REPORT

Comments on release of March 13, 1975 (based on reports from exporters during the week ending March 2, unless otherwise noted):

Wheat: The apparent export commitment (cumulative exports plus outstanding sales) for 1974/75 increased by only 6,900 metric tons (MT). Increased commitments to the Republic of Korea and Japan of 288,000 MT and 89,500 MT, respectively, were largely offset by smaller commitments to Morocco, Venezuela, and the European Community (EC) of 203,100 MT, 78,800 MT, and 58,900 MT, respectively. Optional origin sales increased by 205,000 M.T. for 74/75.

Sales reported under the daily system during the period 3/3-11/75 increased by 101,600 MT and sales to India increased by 228,200 MT, both for 1975/76 shipment.

Feedgrains: The apparent export commitment for 1974/75 declined by 135,600 MT. The total corn commitment fell by 133,300 MT, with larger commitments to Spain (192,300 MT) and Egypt (39,000 MT) more than offset by smaller commitments to the EC (120,300 MT) and unknown destinations (226,500 MT). Since the EC Commission terminated forward fixing of levies on 2/21/75, very little corn has been licensed. As of 3/4/75, the EC had issued corn import licenses for 8.4 million MT from all origins for the 8/1/74 - 7/30/75 period. For 1975/76 shipment, an additional 100,000 MT of new crop corn has been committed to the USSR, offsetting an earlier wheat cancellation of like quantity.

Rice: The apparent export commitment for 1974/75 rose by 63,800 MT, largely because of an increase of 60,000 MT in the commitment to Iran, making the total to that country 398,100 MT.

Soybeans: The apparent export commitment for 1974/75 declined by 362,000 MT, the sharpest decline since 12/8/74. The decline was primarily in commitment to EC destinations and reflects cancellation of insurance purchases as well as continued poor crushing margins in the EC. With half of the marketing year over, the unadjusted rate of exports continued at 14.1 million MT. Outstanding sales to the Republic of Korea increased from 30,000 MT to 50,000 MT.

Soybean Meal: The apparent export commitment declined by 356,000 MT, the largest decline since 1/26/75. EC destinations accounted for most of the decline. A report that Peruvian fishing will begin on 3/10/75 may have been a factor in the cancellation of some export contracts. Commitments to Czechoslovakia increased by 11,000 MT and to Venezuela by 13,500 MT.

Soybean Oil: The apparent export commitment to the Netherlands, seldom an importer of large quantities of U.S. soybean oil, declined by 29,000 MT and further cancellations are expected. Exports during the week totaled 11,700 MT, including 10,500 MT to Iran and 1,000 MT to Japan. Vegetable oil prices rose during the first week of March following the sharp decline in late February.

Cotton: A 3 percent drop in outstanding sales and moderate shipments of 106,000 running bales (RB) resulted in a net increase in the apparent export commitment of 39,000 RB. The Republic of Korea and Japan accounted for 38 and 24 percent, respectively, of exports during the week. Japan registered the largest single increase in outstanding sales but most new sales were in small lots to a large number of countries. With 7 months of the marketing year gone, outstanding sales were still 30 percent above cumulative exports. Sales for 1975/76 shipment increased by 20,000 RB, the second successive weekly increase.
